To: Jonathan.Gould@occ.treas.gov, arianne.minks@occ.treas.gov

This morning, I received several emails informing me about the steps "I" had taken to file a FOIA request through <https://occ.secureocp.com/>. When I accessed the portal, and clicked on the request, there was no option to make any revisions other than updating the profile section, where the only prior information was my email address.

I presume this relates to the attached 'Public Records Act Request (Gov. Code § 7920.000) – PIU #1553638 & Aggregate Enforcement Data. Code § 7920.000) – PIU #1553638 & Aggregate Enforcement Data' email.

However, since I am unsure what exactly happened, I have attached additional clarifying documentation also. To be clear, I was seeking access to the information set forth in the referenced email and am more than happy to await its results. If something else is happening, please let me know and advise on any remedial steps. Thanks!

Charles Kinslow
