SECTION 3: CARRIER HUB ORIGIN SCAN & PROOF OF DELIVERY ANOMALIES

OnTrac Origin Scan: July 7 at 4:12 PM CDT | Delivery: July 10 at 12:22 PM | San Jose, CA 95127

The 165-Minute Window: 2 hours and 45 minutes elapsed between label generation (1:27 PM) and the first physical laser scan in DeSoto, TX (4:12 PM), establishing that merchant and lender had ample time to halt shipment.

Proof of Delivery Physical Security Audit: The delivery photo shows a highly distinctive residence featuring a prominent overhead surveillance camera and reinforced security door structure (sharply contrasting with adjacent neighboring doors).

Carrier Camera Compression: OnTrac's low-resolution delivery camera blurred the shipping label text, obscuring printed address numbers, while recording the unique security camera hardware at the entry.
